

Be prepared with Lifeline

Like other seniors, you're happy living at home and going where you want to go, just as you've always done. But it's important to be prepared in the event of a sudden fall or other life-impacting emergency that could threaten your health and your independence.

Your plan should include Lifeline – the #1 medical alert service in the US today.¹ For over 45 years, more than 7.5 million people have relied on Lifeline to help them remain independent. We offer the most advanced monitoring solutions and award-winning customer service.

We'll help you set up a personalized care plan so you're always in control of who you want to help you.

The Lifeline difference

- Easy to set up and use
- Round-the-clock monitoring
- No long-term contracts⁵
- No service cancellation fees

1. Most popular claim is based on number of subscribers. 2. Refer to IFU for more details. 3. Coverage inside and outside the home provided where wireless network coverage is available. Recharging of the On the Go Mobile pendant is done by the subscriber as needed by connecting it to its charger. 4. Automatic fall detection technology does not detect 100% of falls. If able, users should always press their personal alert button when they need help. 5. For some service contracts, a three-month duration might be required. 6. In the case of a fall detected signal from our automatic fall detection technology with no verbal response from the subscriber on multiple attempts, Lifeline may contact EMS for response.
